MESSAGE FROM
THE HONOURABLE VICE CHANCELLOR

A very warm welcome to the students, who aspire to be a part of Cluster University of Srinagar from the academic session 2023-24!

The establishment of Cluster University in 2016 was an innovative and a strategic intervention in the higher education sector of J&K. The change was driven by the need to decongest the universities since the state universities were overburdened with hundreds of affiliated colleges. In this short span of time, Cluster University of Srinagar has carved a distinct identity by emerging as an important institution of higher learning.

Cluster University of Srinagar was created by pooling the resources of five existing colleges- Amar Singh College, SP College, Govt. College for Women, M. A. Road, Abdul Ahad Azad Memorial Degree College and Institute of Advanced Studies in Education (IASE). These five constituent colleges have adequate infrastructural facilities and they are all evolving in the form of advanced schools of learning. Besides, four colleges viz. GCET Safapora, GDC Allochi Bagh, GDC Hyderpora and GDC Eidgah are affiliated to Cluster University of Srinagar.

To act as an agent of change, I believe we need to have a special focus on skill development and creation of skilled workforce by undertaking industry oriented teaching, training and research, extension programmes and providing employable skills with a view to contribute to the development of the society. In this direction, we have been consistently floating skill and vocational courses to meet these objectives.

I firmly believe in establishing linkage with industry for promotion of science, technology, entrepreneurial skills, innovations, etc. and to adopt innovative methods to achieve the status of a self-reliant institution. Modern tools of e-learning have become integral part of the educational system at Cluster University of Srinagar. Innovative skill courses are being introduced with curriculum being designed as per the relevant needs of the industry.

We aim to improve the employability of our students keeping in consideration the demands of the highly competitive job market. Given the importance of co-curricular activities, we have constituted various centralized committees including the cultural and literary committee and the sports committee to ensure all-round development of students.

Cluster University of Srinagar has implemented the National Education Policy-2020 in letter and spirit from the academic year 2022-23 to lay the foundation of a robust system which caters to the changing demands of the world. The curriculum framework under NEP-2020 implemented at Cluster University of Srinagar is student centric; it ensures academic flexibility vis a vis selection of programmes of study from courses as diverse as major, minor, multidisciplinary, skill enhancement, value added and ability enhancement courses to harvest, in the best possible way, the potential of a student.

From the academic session 2023-24, the University has adopted the policy of single admission exam to its Undergraduate courses through Common University Entrance Test (CUET). I consider it a landmark achievement: it is a student friendly transparent process with centralized allocation of seats based on CUET merit scores and preferences opted by students.

I once again welcome my prospective students and wish them the best.

Prof. (Dr.) Qayyum Husain
Vice Chancellor
Cluster University of Srinagar

The infrastructure development of the cluster universities is funded through the Rashtriya Uchchattar Shiksha Abhiyan (RUSA) scheme of the Ministry of Human Resources and Development (MHRD). Introduction and development of cluster universities in Srinagar and Jammu have not only boosted the existing higher education facilities in J&K, but also helped to diversify the academics with the introduction of latest job-intensive courses at the graduate and post-graduate levels. CUS promotes cutting-edge research to create outstanding conditions for young scholars at universities, to deepen cooperation between disciplines and institutions, to strengthen national/ international cooperation between researchers.
